

# Missions in Juneau!

## Cru Summer Project: Answering the call to GO!

For God is not unjust so as to overlook your work and the love that you have shown for His name in serving the saints, as you still do.

-Hebrews 6:10

## How God has been working!

I hope that this letter finds you well! I apologize for my tardiness in getting this letter to you. This has been the first time that I have ever really been far from home, and God has been teaching me to rely on Him when there are things that I have no ability or means to change them because of the great distance. This is my greatest prayer request at this time.

My mission this summer was to come to Alaska and make a difference throughout the community through outreach events, co-worker interaction and growing to be a part of one of the local churches. It has truly been amazing how God has challenged me while I am here as well as all of the blessings he has bestowed on me as well.

When I think of “Project” I always thought that we to accomplish a goal, but something I hadn’t quite conceived, was that I am part of the project and I certainly have a long way to go! This summer I have had the privilege of learning more about what it has meant to be a Biblical man, and what it means to actively live a life of servitude. Being able to apply these lessons in a workplace wasn’t frightening for me, and I have certainly been blessed with all of the various conversations that have occurred when people ask why I am up here, or why do you treat people like that?

Being able to volunteer in the community has been a great way to get to know a few select individuals, usually because you are paired with someone not on “project.” I am not quite sure why they always have me working security, but it has proved to be a great place where I can get to know a person and reach out to them and help them see a glimpse of God’s love. Most of our outreach is through a corporation titled Love INC (Love in the name of Christ).

My church is focused on loving and serving people to show God’s love in any way they can. They are a small house church, but the love that they share among the community is greater than anyone could expect. Throughout the week they do a lunch program where all of the children from the low-income communities are served a lunch and provided with a safe area to play and this allows us to build relationships with the younger children as well as their older siblings and parents. In conclusion, thank you so much for being part of my support so that I have the opportunity to continue to reach the people of Juneau as well as a prepare to come back to my various ministries back home!

## Praises/Prayers

Time	That I would make the most out of the time that I have been given here!
Support	God has provided the funds through supporters as well as my part-time income to cover all of my expenses!
College	That I would prepare my heart and mind, and that I would continue to apply what I have learned!
